EXPERIENCE

User Experience Designer | Medavie Blue Cross

JUN 2022 – PRESENT, TORONTO, CA

As a UX Designer on the Digital Strategy & Experience Design team:
- I turn business and user requirements into plans for intuitive, accessible, and engaging web pages, websites, and applications.
  - I am responsible for user/screen flows, information architecture, interaction design, UI layout, visual design, A/B testing, and more.

Fundraiser | iMarketing Direct Solutions

APR 2019 – SEP 2021, TORONTO, CA

- Showing empathetic communication consistently exceeded the fund-raising goals by obtaining funds to support organizations.

UX/UI Designer | GlobalSpace Technologies Ltd.

JUL 2015 – DEC 2017, MUMBAI, INDIA

- Wireframed, prototyped, and developed responsive visual designs for pharmaceutical organizations undergoing digital transformation to troubleshoot the traditional process of sales and marketing to digital.
- Maintained rich and smart user experience by evaluating detailed business and user needs and technical requirements via user research, ideation, prototyping, user tests, and iterative improvements.
- Successfully led the design vision and helped get visible results, ensured quality management, and lead 4 graphic and web designers.
- Designed digital content for marketing materials and completely removed the printing costs and correction hassles.

UI Developer | GlobalSpace Technologies Ltd.

JAN 2015 – DEC 2017, MUMBAI, INDIA

- Executed UI Development of product 'GLOEDGE' for pharmaceutical companies and created and maintained web pages according to project guidelines, using HTML5, CSS3, jQuery and Bootstrap.
- Facilitated and communicated design ideas in sync with the technology trends to stakeholders using Photoshop, Balsamiq and InVision.
